# Action Plan 2006 – 2010

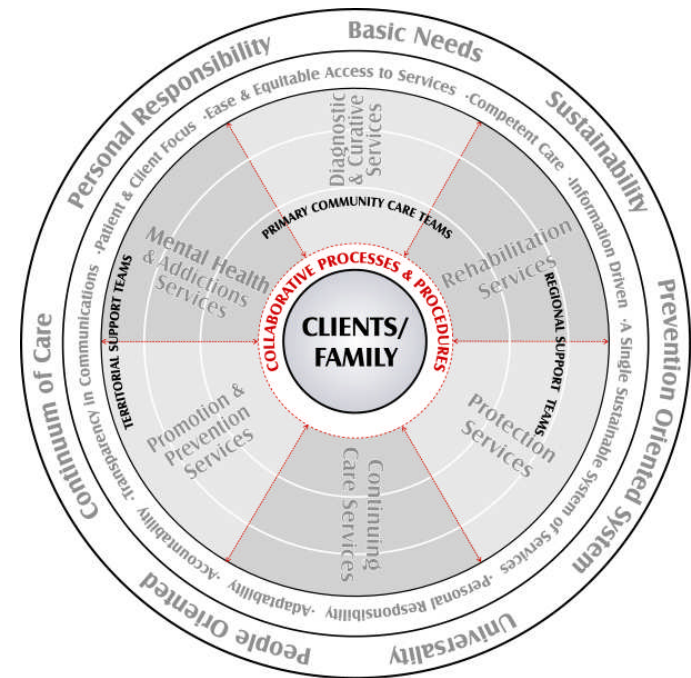

August 2006

Early in 2002, the Minister of Health and Social Services approved the *Action Plan 2002 – 2005*. That plan described actions on a number of fronts, all directed toward improving the NWT health and social services system: improved services to people; increased supports to staff and trustees; development of an integrated service delivery model; and improvements in system-wide management and accountability. Those actions are now either completed or ongoing.

In 2005 the Department and the Health and Social Service Authorities undertook to update the system-wide strategic plan, which resulted in the development of *Shaping Our Future, 2006 – 2010*. That document lays out the high-level strategies that will be undertaken in the coming years. This current Action Plan details the specific actions that will be undertaken by the NWT health and social services system over the next five years in order to move forward with our updated strategic plan.

The development of the Integrated Service Delivery Model (ISDM) was one of the major accomplishments of the previous Action Plan, and forms the foundation for *Shaping Our Future 2006 – 2010*. Consequently, the initiatives that are detailed in this current Action Plan are organized around the six core services of the ISDM, along with the addition of actions that support improved management and accountability for the delivery of health and social services to the people of the Northwest Territories.

| Action | Issue | Deliverables | Timeline | Accountability |
|--------|-------|--------------|----------|----------------|
|--------|-------|--------------|----------|----------------|

| 1. Promotion and Prevention Services  |   |   |                                     |                   |
|---|---|---|-------------------------------------|-------------------|
| <p>1.1 Improve the health of citizens and support healthy personal choices:</p> | <p>The long-term sustainability of the NWT health care system is seriously threatened by the fact that the majority of chronic diseases, such as cancers, dental diseases, diabetes, cardiovascular deficiencies, and disabilities that in certain cases are the result of unhealthy lifestyles and high-risk behaviours, which could be prevented.</p> | <p>Stable funding, equivalent to 1% of the department's base, will be allocated annually to sustain coordinated social marketing initiatives supporting the GNWT Healthy Choices Framework.</p> | <p>2007/08, ongoing</p>             | <p>Department</p> |
|   | <p>Through the Healthy Choices Framework, Ministers of the social programs departments have committed to a collaborative and coordinated approach to health promotion and are leading the development of interdepartmental action plans to address unhealthy behaviours.</p>  | <p><b>A) Tobacco Strategy</b></p>   |                                     |                   |
|   |   | <p>Butthead social marketing campaign focused on 8 – 14 year old smoke free commitments</p>   | <p>Annual event through 2010/11</p> | <p>PH</p>         |
|   |   | <p>Proclamation and implementation of the Tobacco Control Act</p>   | <p>October 2007</p>                 | <p>PH</p>         |
|   |   | <p>Evaluation of the first five years of the Tobacco Action Plan</p>  | <p>Report available in May 2007</p> | <p>PH</p>         |
|   | <p>Renewal of the Tobacco Strategy (2007-2012) based on the evaluation results</p>  | <p>Cabinet approval by September 2007</p>   | <p>PH</p>                           |                   |
